

## Vaping Presentation Helpful Hints

Thank you for downloading the vaping presentation geared toward youth. A few notes to help you find what you need:

The slide deck contains mainly visual content. The presenter's narration for each slide can be found in the "notes" section. Where there are no notes, simply read the text/title on the slide. Please feel free to personalize/adapt the narration (or content) however you'd like.

A couple of slides have content that may be more appropriate for high-school aged students. You can hide those slides if you feel they aren't appropriate for your group.

There are two videos that should play automatically when you advance the slide. Both have sound, so you'll need speakers to hear the music. The first video starts after you advance the title slide. The video playback can be paused at any time if students need more time to read the text, or if you'd like to discuss further. The other video is toward the end, and is a PSA created for our vaping campaign. To access all the campaign materials, visit: [https://drive.google.com/folderview?id=0B-jeRQ\\_pCXGKZmgyWDFoNFBhanM&usp=sharing](https://drive.google.com/folderview?id=0B-jeRQ_pCXGKZmgyWDFoNFBhanM&usp=sharing)

The final slide lists discussion questions, but there are also some optional activities listed in the notes section of that slide.

Please feel free to share any feedback with us, and let us know if you'd like any assistance sharing this material!

Sincerely,

Bangor Public Health & Community Services
